

Order of the Red Banner, 2nd consecutive award, Type 3 (suspension), SUPERB QUALITY REPRODUCTION.

Exceptionally well-made, among the best copies of the Order of the Red Banner we have ever seen (short of being an outright fake intended to sell as original). The details of the wreath and torch are well defined. The enamel is epoxy based but its color, tint and luster make it an amazingly close match to the original. Convincing-looking reverse is complete with correct serial number (which may differ from the example shown in our photo) and "mint mark". Perfect fit with the other reproduction Red Banners of our "Deluxe" series.

Comes on Soviet-made suspension in aluminum, with new ribbon.
