AK, Issue #3 (March - May 2010), 8 1/2" x 11" format, 84 pp, Russian text.

Even better than the previous issues! Contains details articles on bayonets of Yugoslavia; foreign recipients of the Order of St. George during the reign of Alexander II (1st in the series of two articles); WW2 German Sparbuch (savings book) for the families of fallen Luftwaffe pilots; Badge of Excellent Administrator (from the WW2 Railroad proficiency award series, superb article with detailed photos of all known variations); watermarks or die flaws of the Ushakov Medal (excellent article which virtually eliminates the danger of fakes, at least for the time being); hallmarks on the state awards of Czechoslovakia (final article in the short series); German WW2 belt buckles with listing of makers and maker marks (2nd article in the series).
