

Tallinn Merchant Fleet School (TMU), graduate badge, circa 1960s.

Brass, enamels; 53.2 x 27.2 mm. Four-piece construction: the ship, globe with anchor, and the white plaque with abbreviated name of the school TMY ("TMU") are separate superimposed parts. A massive, extremely well-made badge.

In excellent condition. The enamel, finish and details are perfect. The screw post measures slightly over 6.5 mm, which appears to be full length for this badge. Original screw plate is included.

Item# 31149
