

Order of the National Flag, 3rd class, Type 3 Variation 2, #31096, circa 1950s-60s.

In silver and fine "hot-baked" enamels; measures 48.6 mm in height, 46.8 mm in width; weighs 32.1 g without the screw plate. Features a comparatively thin screw post measuring approx. 3 mm in diameter and a small, 22.6-22.7 mm screw plate. This piece was probably made in Czechoslovakia on commission from the DPRK government.

In excellent condition. The enamel is completely free of damage or rubbing and retains a beautiful luster. The starburst is practically pristine having only some microscopic contact marks, no wear visible to the naked eye. The star in the center shows only very mild wear to its apex, while its ridges are perfectly crisp and the original gilt finish is clearly visible. There is a very attractive patina to silver throughout. The screw post is full length, approx. 16.5 mm, and includes the original screw plate.
