

Award certificate for a Motherhood Medal, 1st class, #912163, awarded on 10 April 1946 to Praskovya Bogomolova (Прасковья Иосифовна Богомолова).

The document is of very early type, printed in 1945 and different from the motherhood medal certificates issued in the 1950s and later. Note in particular the soft cloth bound-cover unlike the hard cover of the later documents. The document was definitely awarded with one of the Variation 1 medals featuring early style of the suspension device. The document was filled out on 17 April 1946. It shows the date of the award decree and a stamp of the Presidium of the Supreme Soviet of RSFSR.

In excellent, near mint condition. The cover is perfect, its color is strong. The binding is tight. The internal pages have the usual small stains from the rusted staples, otherwise pristine and crisp.
