

Order of the National Flag, 2nd class, Type 5 Variation 3, #80247.

Silver-plated and gilded brass, enamels; measures 58.6 mm tall x 56.4 mm wide; weighs 53.0 g. Three- piece construction: the larger gilded star and the enameled center medallion are separate superimposed parts held by a rivet. Features flat reverse with matte "satin" finish, vertical pin attachment, thin housing for the pin, and stamped serial number. Among the relatively recent issues, this variation is scarcer than most others (rated R2 according to the Sessler and McDaniel reference guide).

In excellent condition. The enamel shows beautiful luster and has only a couple of minuscule contact marks nearly unnoticeable without magnification, no flaking or other wear. The gilt finish is nicely preserved. There is a small amount of verdigris around the center medallion that adds character.
