Military Officer Rain Cape with Hood, dated 1986.

In olive-drab rubberized fabric, with button closure in the front and buttoned slits for arms. The fabric is both lighter and more water-resistant than the more common canvas plashch-palatka shelter quarter for enlisted men and NCOs. Comes complete with a detachable hood in the same material. On the inside near the bottom hem, there is a sewn-in manufacturer's tag of the garment factory in the town of Slavyansk, RSFSR, showing the 1986 date of manufacture. The tag also shows the size of 108 /188 cm (Extra Large / Extra Tall). Designed to be used by an officer while inspecting sentry posts in inclement weather, this raincape is worn over regular service uniform and will fit almost any size.

In very good condition, showing no tears, snags or other noticeable wear. The exterior is perfectly clean. The rubberized fabric on interior shows what may appear to be stains, but these are in fact a result of manufacturing process (the Soviets apparently didn't care how it looks on the inside as long as the outside looked presentable.)

Please note, other items shown in our photos (helmet, gymnasterka) are not included but may be available separately on our website.
