

Lithographic Portrait of Stalin, artist signed 1951.

Large poster-size format, measures 19 1/4" x 25". Published by the ART Publishing House, circulation 350,000 copies. Printed in the printing shop of the Moscow Mint. Artist's name, F. Maloletkova, is printed in the lower left-hand corner under the image. Her handwritten signature, part of the lithograph, is in the lower right-hand corner of the image. The original board of this lithograph was created in the late 1930s.

In very good to excellent condition. The image is pristine. A short rip at the left-side edge and minor wrinkles to the paper along all four edges are far from the image and do not detract from its high quality. Framing the print will certainly make this wear invisible.

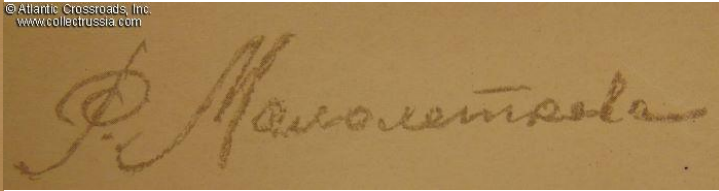

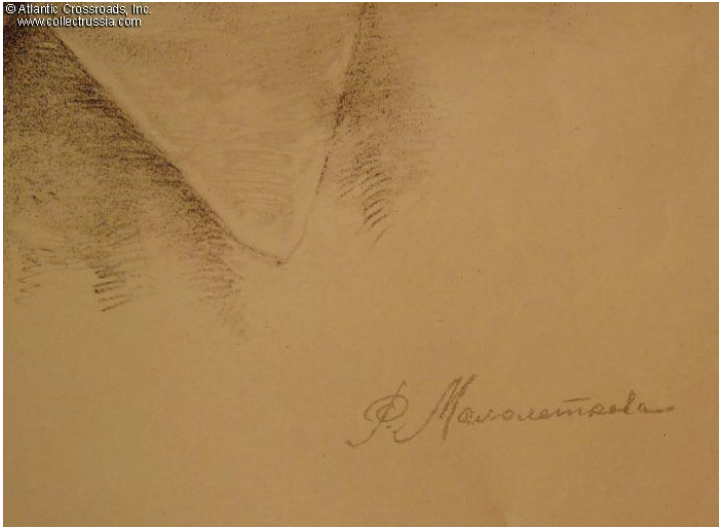

Please note that the pen in our photo is for size reference.

Please note: due to the large size of the item, it will be shipped rolled, in a sturdy cardboard tube.
