

Armored Corps Officer Dress Visor Hat, dated 1979.

In wave blue gabardine, with black velvet band, red piping and gold chin cord. Sweat diamond shows the logo of the TsEPK military hat factory in Moscow and shows a 1979 date of manufacture. Size 57 (approx. US Size 7 1/8) is stamped on the liner.

In excellent condition. The exterior band and wave blue fabric of the crown are perfect, without mothing or significant wear, showing only minor dust from storage that should clean off. There are a few very minor moth nips to the red piping, not very noticeable or detractivwe. The liner is immaculately clean. The sweatband is likewise perfectly clean and fairly pliable, not too stiff as is often the case. The visor has some very minor scuffs, no significant scratches or excessive wear. Overall, a superb example of the Soviet Tank Corps officer hat made in the year of the Soviet invasion of Afghanistan.
