Zeughaus Issue #13, 2001

Covers elite infantry regiments of Moscow, mid XVII C., late XVIII - early XIX C. uniforms of Mineral Mining Department, Russian hussars in Hungarian Campaign of 1849, sleeve insignia of Red units in Russian Civil War, interesting article on K. Trubnikov, recipient of all four St. George Crosses in WWI ho reached the rank of Col. General in the Soviet Army during WWII, and (finally!) complete chart of current Russian navy hat badges with color photos. As always, very well illustrated.
