In Russian with English captions, Moscow, 2002. Soft cover, 79 pp, dozens of b/w pictures, 6 tactical maps (two of them in color), color illustrations of armor and German tactical markings. About 8" x 11".

The focus of this book is on actions of tank units on both sides, but it also provides rather detailed information on overall numerical strength in the Soviet Baltic Military District. The book utilized immense amount of Soviet archival information, much of it available for the first time. Excellent photographs!
