

T-26 Light Tank.

M. Svirin, M. Kolomiets. "Frontline Illustrated" series. C. 2003, Moscow. In Russian with English captions. Contains 77 high quality, large b/w photos, plus 6 color photos and excellent technical drawings. About 8.5" x 11".

The book provides complete history of this vehicle starting with its early development and two-turreted models. It also has a chapter on captured T-26s in Finnish service. There is good amount of interesting information on repairs and upgrades made to this relatively obsolete tank during the Patriotic War. Soft covered, 79 pp.
