

Russian Orders of the 17th - 19th Century.

Oversized 17" x 11" poster book of Imperial Russian Medals. Pages designed to be removed for individual display as posters. 12 in all depicting breast stars, neck orders, sashes, etc.

A good tutorial on the highest Imperial awards The accurate illustrations are shown life size and in full color. A lot of information for a small price. Russian language text but with summary English translation on the last page. This identification guide is recommended for prop makers, model soldier builders, military historians and people with a general interest in the subject.

Condition shows a lot of storage wear to the folder cover, but the posters inside are fine. If you intend to collect original Imperial Orders, you will need several of the more detailed books that we offer, but this is still a good identification guide.
