

Order of the Badge of Honor, Type 3, Variation 2, #100960, circa 1948.

Silver gilt, enamels; measures 50.4 mm in height (incl. eyelet), 33.0 mm in width; weighs 36.9 g not incl. the suspension and connecting link. Features riveted construction with flat reverse and very small mint mark. According to the Mondvor.narod.ru classification, this is Type 3 Var. 4 found in two serial number ranges, 96730 - 126557 and 185869 - 187509.

Excellent condition. The enamel and details are perfect. Pale spot at the top of the reverse is apparently due to an old sticker that covered that area, sure to blend in eventually as silver patina takes over. Comes on original suspension, a two-piece in steel with integral catch of the pin, with nicely preserved old ribbon. The connecting link appears to be original; its ends are still joined with solder.
