

**Badge in Commemoration of the 30th Anniversary of the Pacific Ocean Highest Naval Academy (TOVMMU), 1967.**

Brass, enamels; 29.7 x 27.5 mm (measured along the sides of the parallelogram). Nice artwork showing the naval monument in Vladivostok where the school was located. The number 48 next to the abbreviated name of the school TOVVMU may refer to a department within the school.

In excellent condition. The mint marked screw plate is probably not original to the badge but is roughly contemporary to it and fits perfectly.
