"Current Illustrations" German "news sheet" shows the Wehrmacht on the attack on all fronts circa 1942.

Russian language poster.

13 3/8" x 37 1/2". Selection of photographs designed to impress the viewer with the might of the German war machine. Two headlines read: "British Admiralty is Incompetent!" and "Churchill is Lying!"

Good condition. Small rubber stamp mark indicates that this was once part of a collection. Paper loss on some edges as well as minor tears and folds. The previous owner sought to reinforce the back with masking tape, something that a new owner might wish to have a restorer remove.

Great selection of combat photos really conveys the propagandist's message of, "Germany is winning this war and will continue to win. Get used to it!"
