

Badge for Excellence in Socialist Competition, Narkomat of Coal Mining, Type 2 Variation 1, #13343, 1941-1946.

Silver-plated brass, enamels; 26.8 x 21.9 mm. This is Variation 1 of the brass badge featuring flat reverse.

In fine overall condition. There is a chip to red enamel along the edge, above and to the right of worker's head (mostly not penetrating to brass). The white enamel has hairline cracks that are not very noticeable. Details are relatively well preserved showing only light wear to the high points; some of the silver plating is visible in the crevices. Nice overall appearance. Most of the silver finish on the reverse is present. The screw post is full length, approx. 14 mm. Comes with original mint marked screw plate.
