

Airborne Spetznaz Sleeveless tank top Telnyashka, traditional striped knit undershirt with light blue stripes.

NEW, unissued condition. In 100% cotton; a comfortable, stretchy double knit. The stripes are WOVEN not printed (unlike the cheap imitations that we see on the market) and are as blue on the inside as on the outside. This tank top is currently made in Russia but virtually indistinguishable from Soviet era shirts. The light blue stripes are correct for Airborne Spetznaz troops (VDV or Vozdushno-Desantnye Voiska).

PLEASE NOTE: a telnyashka should be washed in cold water and never in hot. It will shrink about a size if you wash it in warm water. It should probably be line dried here than dried in a drier.

We have the following Russian Military size currently in stock (please specify the size when ordering online):

(1) SIZE: MEN'S EXTRA SMALL (Russian Size 44-46)

Measures approximately 35" - 36" under arms around the fullest part of the chest, Front body length approximately 27" from highest point on the shoulder to the bottom hem.

Please remember: these are always worn very close-fitting (much tighter than in our photograph!), so expect your new shirt to have a very snug fit!
