

Order for Service to Motherland in the Armed Forces of the USSR, 2nd class, expertly made REPRODUCTION.

This massive replica in base metal and "cold" enamel is a very good match to the original. Measures about 59 mm wide and weighs approx. 65 grams. The enamel and gilt finishes are very convincing (the enamel may be a tad darker than it should be but this is not too noticeable). Multi-piece construction also precisely mimics the original piece without being so close as to present a danger to the experienced collector.

Engraved "serial number" on the reverse (please note, it may differ from the example in our photo).

Item# 28186

\$150.00
