

Button for a Navy Admiral's tunic, dated 1976.

Early model in anodized aluminum with brass backing; measuring 23.5 - 23.7 mm in diameter. Stamped maker mark "Moschtamp" and date "76" on the reverse.

In excellent condition. The gold finish is extremely well preserved and bright, shows only tiny amount of wear to the high points of the state emblem.

Several in stock, in equal condition. Price per single piece.
