

Order of Bogdan Khmelnitsky, 3rd Class streamers to indicate the award to a military unit, circa 1960s-80s.

In nice silk moiré fabric with gold tassels. The gold tassels are of fine quality. Excellent condition with storage age and only minor amount of service wear. There are no stains or tears.

Streamer sets like these were carried on unit flags by many of the same soldiers who had earned the awards during WW 2. There were only 216 Soviet military units in total ever awarded with an Order of Bogdan Khmelnitsky, 3rd cl. Paradoxically, this number is much smaller than number of units awards of the higher, 2nd class of the same decoration, so original Khmelintsky 3rd cl. flag streamers are quite rare.
