

Lomonosov Naval College (LMU VMF) graduate badge, Type 2, circa 1970s.

Brass, enamels; 42.3 x 26.9 mm. The state emblem at the top is a separate, superimposed piece. The inscription at the bottom is ■■■ ■■■■ (Lomonosovskoe Morekhodnoe Uchilishche). Features a Soviet Naval ensign under the state emblem, an indication that this is a naval rather than merchant fleet school.

In excellent condition. The enamel is perfect (its surface is somewhat uneven which is a manufacturing flaw, not a result of wear.) The details of the state emblem are nicely defined and crisp. Comes with a Pobeda factory screw plate which is of the period and fits perfectly, although not necessarily original to this particular badge.
