Badge to a Defender of the Leningrad Sky, 1972 anniversary issue to a veteran of the WW2 Air Defense of Leningrad

Aluminum, paint, lacquer; medallion is 38.8 mm tall (incl. eyelet), 38.6 mm wide. Attractive artwork showing searchlights piercing sky over the Cruiser Aurora and the Admiralty building with its distinctive spire. Unlike the more common later issues, the badge features dates "1942-1972" on the red band. The suspension has red cloth ribbon. The reverse of the suspension has raised early style logo of the Lenemalyer Factory in Leningrad.

The badge is in very fine to excellent condition. The reverse has crudely engraved number "503" - probably added there by the original owner of the badge.
