

Table Medal in Commemoration of the 50th Anniversary of VLKSM, 1968.

In bronze, measures 70.1 mm in width. This massive piece is the larger of the two versions of this medal. The obverse shows sculptured portrait of Lenin. On the reverse are the dates "1918-1968" and Lenin's quote "Only through labor together with workers and peasants one can become a true Communist. V. Ul'yanov (Lenin)". Comes with a cardboard box lined in red felt with a nest for the medal. The box is of the period and may be original to the medal.

The medal is in excellent condition. Very attractive even dark toning to the brass throughout. The case shows minor wear and scuffs to the exterior, still sound and presentable; very good overall.
