

Medal of a Winner of the Professional Skills Contest among Vocational Technical Colleges of the Ukrainian SSR, issued by the LKSMU (Yong Communist League of Ukraine), circa 1980s.

The medallion is in anodized aluminum and lacquer, 40.2 mm wide. The suspension ribbon is in pale red silk. The inscription on the obverse of the medallion is "(To Reach) the Space Heights in One's Profession". The writing on the reverse reads "Republican Professional Skills Contest among Students of Vocational Technical School System". The raised inscription at the bottom of the suspension is ЛКСМУ ("LKSMU", and acronym for the Yong Communist League of Ukraine - i.e. the Ukrainian branch of the Soviet Komsomol Organization.) The reverse of the suspension has raised inscription "The Winner".

In excellent condition. The finish on the metal parts is nicely preserved. There is only minimal wear to the original ribbon that remains sound and clean.

This award was apparently issued for only a short time in the 80s and is therefore quite uncommon.

Please note, a penny in one of our photos is for size reference.
