

Lenin Bust in Silumin, by Baganov, 1979.

Roughly 8" tall, 5" wide at the base, and weighing 3.2 lbs; stamped on the rear with year (1979) and name of the artist (N. Baganov).

The piece features Lenin wearing a tie under collared shirt and a trademark cap, squinting off into the distance; he is likely pondering unanswerable questions, such as when full communism will finally be achieved.

Excellent condition. The Silumin alloy has acquired a fine, amber patina over time, which is consistent over the entire exterior of the bust.

Please note, the medal in one of our photos is there for size reference.
