Document for the Restoration of the Ferrous Metallurgy of the South Medal, awarded on 9 July 1949 to Yuliya Gaiduchenko.

The document was issued by the executive committee of the town of Kadievka (located in the Luhansk Region of eastern Ukraine, the city was later renamed Stakhanov and then given its original name of Kadievka following Ukraine's independence).

The document is in outstanding, excellent condition. Crisp and clean, completely free of significant soiling or wear. There are just a couple of very faint spots on the cover, not detractive in the least. A relatively uncommon issue to a female recipient.

Item# 38405

\$80.00
