

Polonnoye Factory of Artistic Ceramics catalog, 1986.

Measures 11 1/4" x 8 3/4", paperback, 39 pp. Russian text. Printed on heavy-stock semi-gloss coated paper. The presented production items are grouped into 4 categories: vases, household items, dishes and "plastica" (figurines). The catalog appears to have been compiled only for the purpose of presenting the factory's lines of products but not for sales as prices are not cited.

The internal pages are in excellent condition: no noticeable age toning of the paper and just a barely noticeable curve to the bottom corner. The paperback cover is in fair to good condition, showing some age wear along the edges and along the spine in the form of minor separations, scuffing and soiling.

Porcelain and ceramics have been crafted in Ukraine at the place that now is known as Polonnoye since 1880s and the factory continues its rich artistic traditions producing millions of porcelain and other ceramic products annually.
