

Gold Brocade Belt for a full dress General uniform, dated 1989.

Extremely nicely detailed buckle shows Soviet state emblem in high tri-dimensional profile. High quality brocade material. One extra-large size fits all by using the loops on the liner for adjustment. This is the last model of the Soviet general's belt featuring yellow liner. The liner has manufacturer's stamp with a 1989 date (faint but legible).

In excellent condition. The gold finish of the buckle is perfect and bright. The gold brocade is free of scuffs or snags. There is only minor wear to the liner that won't show when the belt is on display, no stains or tears.
