

Civil Airlines Pilot badge, 4th class, circa early 1980s.

In aluminum and paint; 28.7 mm tall x 80.2 mm wide. Variation featuring flat reverse and raised late-style trademark. Excellent condition.

This particular badge is far less common than many others because its 4th class was abolished in 1986; starting from that point, there were only three qualification levels for Civil Aviation navigators (as well as radio operators, engineers / mechanics, and traffic controllers).
