

Romania (RSR), Order for Outstanding Service to the State, 2nd class, 1970s-80s.

In silver plated brass, enamels, and imitation rubies; riveted construction. Measures 61.2 mm in height, 53.2 mm in width; weighs 37.2 grams. A very elaborate, well-made piece. Note that all the stones have individual settings, just as if they were real gemstones.

In very fine to excellent condition. The enamel on the scrolls under the national emblems has a couple of tiny chips that are nearly unnoticeable to the naked eye. Elsewhere, the enamel has only some microscopic contact marks and minor amount of rubbing visible under magnification, but no significant wear. The silver plating on the starburst is completely intact. Overall, a very impressive piece.

This order was usually issued to Securitate state security officers and therefore commonly known as "Order of Securitate".
