

Photo Postcard His First Car, 1955.

The size is continental 6" x 4", postally unused and unmarked. The artwork is a print off a color photo depicting a toddler trying to push a tricycle. Please note that the blurriness of the image is a defect of the postcard and not of our photo of it. Published by IZOGIZ, circulation 500,000 copies. The back is divided, the artist's name, I. Yefimov, is printed in the lower left-hand corner.

In good condition. The image is slightly blurred, a defect that occurred during printing of the postcard. The colors are still vivid and natural. The front shows small corner bumps, a small stain at the right side of the top edge and mild age toning to the paper. The verso features a couple of stains and moderate soiling. Overall, all this detriment is not too detractive and adds character and an aura of age and authenticity.
