

Medal for the Capture of Budapest, Variation 1, circa 1945- 47.

In brass; 32.1 mm wide; weighs 16.7 g not including the suspension and connecting link.

In excellent condition. Both the obverse and reverse have only some tiny dings and contact marks mostly invisible to the naked eye. The raised details and stippling on the background are extremely well-preserved and crisp. The brass has acquired a very attractive even patina throughout, while the original "gilt" mint luster is nicely preserved in recessed areas near the lettering on the reverse.

Comes on an original suspension of late 1940s type, a single-layer model in brass. The old, possibly original ribbon is perfectly preserved and immaculately clean. The connecting link appears to be of the period. Overall, an outstanding example of the Capture of Budapest Medal.
