

Medal for the Capture of Vienna, Variation 2 (U-shaped ring), late 1940s - early 50s.

In brass; measures 32.2 mm wide; weighs 17.6 g not including the suspension and connecting link.

In outstanding, excellent condition. The medallion shows practically no wear visible to the naked eye; its raised details are exceptionally well-preserved and crisp, essentially pristine. There are no blemishes or oxidation spots; the original "gilt" mint luster is extremely well- preserved and bright on both sides.

Comes on original brass suspension with an old, possibly original ribbon showing slight wear along the edges but still sound, clean and very attractive. A superb example overall.
