

Society of the Proletarian Tourism and Excursions, Tour Guide's Badge, 1930 - 1936.

Brass, enamels; 27.6 x 17.5 mm. Pin back attachment.

In excellent condition, outstanding for a Soviet badge of the 1930s period. The enamel is essentially perfect: it retains a beautiful luster and has only a few minuscule contact marks almost unnoticeable without magnification, completely free of chips, flaking or significant scratches. The pin attachment is intact and functional.
