

### Award Certificate for the Excellent Road Builder Badge issued to V.

Gigauri, a Georgian national, November 1944.

Measures 7" x 9 1/2", printed on heavy-stock coated paper. Formatted like an honorary certificate or citation, decorated with an image of the Excellent Road Builder badge resting on a wreath of olive leaves. The document was issued to V.A. Gigauri, certifying that he was awarded with the Excellent Road Builder badge according to the Decree of the Supreme Council of the USSR of 8 July 1943 and the 17 November 1944 order of the Chief of the Road-building directorate of the Military Construction Directorate of the Red Army.

In very good condition. The fold lines show tiny separations at the edges. The edges show minimal wear. The paper is slightly wrinkled. The obverse is free of any significant soiling; the graphics, printed and handwritten text, seal and signature are vibrantly bright, crispy and perfectly legible. The upper half of the verso is mildly age-toned due to being on the outside when the certificate was folded in four.

This is an extremely rare document, much more rare than the badge itself, especially considering its wartime issue. The first one we have come across in decades.

Please note that the pen in our photo is for size reference.
