

Excellent Soviet Army Serviceman Badge (for enlisted men), 1960s.

In brass and enamels; 39.7 x 29.7 mm. This relatively early badge is of far better quality than the later issues in aluminum and paint.

In excellent condition. The enamel has only a few microscopic contact marks completely unnoticeable to the naked eye and shows a beautiful luster. The gilt finish on the wreath is bright. There are no blemishes or oxidation spots.
