Lenin, full-height standing statuette in Silumin, circa 1960s-80s.

Stands 8" tall, the size of the plinth is 2" square. In Silumin alloy, cast from a finely sculpted and detailed model.

In very good to excellent condition. There are a couple of dark lines right under the vest which look like pencil marks, and a few tiny oxidation spots, mostly on the shoulders and back, but no significant post-manufacture scuffs, scratches, or nicks anywhere.

Please note that the quarter coin in our photo is for size reference.

Item# 47398

**\$60.00**
