

### Medal for Irreproachable Service in KGB, 2nd class (for 15 years of service).

Brass, silver plating, gilt; measures 37.0 mm in height incl. eyelet, 32.0 mm in width; weighs 16.5 g not including the suspension and connecting link. There is a Roman numeral "XV" on the obverse, the distinguishing feature of KGB long service medals.

In excellent, near mint condition. There are no traces of wear visible even under a 10x magnification. The silver and gilt finishes are perfectly preserved and exceptionally bright, free of tarnish. The old ribbon is perfectly preserved and very clean. The connecting link appears to be of the period. Overall, a superb, impossible to upgrade example.

Item# 47474

**\$55.00**
