

Medal for Irreproachable Service in KGB, 1st class (for 20 years of service).

Brass, silver plating, enamel; measures 37.0 mm in height incl. eyelet, 32.0 mm in width; weighs 16.7 g not including the suspension and connecting link. There is a Roman numeral "XX" on the obverse, the distinguishing feature of KGB long service medals.

In outstanding, excellent condition. The medallion is essentially pristine: there are only a few miniscule contact marks, mostly on the reverse and raised edge of the obverse, all of them nearly unnoticeable to the naked eye. The enamel is perfect and shows a beautiful luster. The silver and gilt finish is perfectly preserved and very bright, with attractive toning on the reverse. The old ribbon is perfectly clean. The connecting link appears to be original; its ends are still joined with solder. A superb example overall.
